METALLOGRAPHY
An International Journal

Published in association with the International Metallographic Society
by American Elsevier Publishing Company, Inc.
52 Vanderbilt Avenue, New York, N.Y. 10017

Subscription price for Volume 4, 1971: \$33.00 plus \$3.00 postage;
single copy price, postpaid (1971 issues): \$6.50; Volumes 1-3: \$30.00 per volume;
single back number, postpaid: \$8.50; double back number, postpaid: \$16.75

Contents—Volume 3

NUMBER 1, MARCH 1970

LIDA K. BARRETT AND C. S. YUST (Oak Ridge, Tennessee)	
Some Fundamental Ideas in Topology and Their Application to Problems in Metallography	1
W. E. WHITE AND L. LE MAY (Saskatoon, Saskatchewan, Canada)	
Metallographic Observations on the Formation and Occurrence of Ferrite, Sigma Phase, and Carbides in Austenitic Stainless Steels. Part I: Studies of AISI Type 310 Stainless Steel	35
W. E. WHITE AND I. LE MAY (Saskatoon, Saskatchewan, Canada)	
Metallographic Observations on the Formation and Occurrence of Ferrite, Sigma Phase, and Carbides in Austenitic Stainless Steels. Part II: Studies of AISI Type 316 Stainless Steel	51
R. A. FARRAR (Southampton, England) AND H. W. KING (London, England)	
Axial Ratios and Solubility Limits of H. C. P. η and ϵ Phases in the Systems Cd-Mn and Zn-Mn	61
D. J. DUQUETTE AND L. P. LEMAIRE (Middletown, Connecticut)	
The Preparation of Thin Foils of Metal Surfaces for Transmission Electron Microscopy	71
D. KUNSTELJ AND A. BONEFAČIĆ (Zagreb, Yugoslavia)	
Decomposition of a Supersaturated Aluminum-Rich Aluminum-Iron Solid Solution during Annealing	79
F. I. GRACE (Dahlgren, Virginia) AND M. C. INMAN (University Park, Pennsylvania)	
Influence of Stacking Fault Energy on Dislocation Configurations in Shock-Deformed Metals	89
C. F. DRISCOLL (San Diego, California)	
Measurement of Anisotropy in Pyrolytic Carbon by Reflection Electron Diffraction	99
D. G. BRANDON AND Y. KOMEN (Haifa, Israel)	
Quantitative Analysis of Dislocation Distributions	111

SHORT COMMUNICATIONS:

EDWARD A. LORIA (Weirton, West Virginia)	
Transmission Electron Microscopy of Carbonitride Precipitates in Niobium-Treated Steel	127
Books: A Selected List	131

NUMBER 2, JUNE 1970

R. J. GRAY AND B. C. LESLIE (Oak Ridge, Tennessee)	
Metallographic Applications of Xenon Illumination Systems	135
R. H. J. HANNINK (Cambridge, England)	
Thin-Foil Preparation of Refractory Materials	147

G. DAS AND J. J. GNIEWEK (Hopewell Junction, New York)	
The Observation of Grain Structure in Evaporated Aluminum Films by Electro-polishing and Chemical Etching	155
A. M. DAVIS (Schenectady, New York)	
Contact Microradiography in the Study of Alloys	165
R. H. OLSEN (Renton, Washington)	
The Use of the Electron Microprobe for Measuring Air Contamination in Ti-6Al-4V	183
ALAN J. MARKWORTH (Columbus, Ohio)	
The Kinetic Behavior of Precipitate Particles under Ostwald Ripening Conditions	197
SHORT COMMUNICATIONS:	
P. J. FOPIANO AND A. J. ZANI (Watertown, Massachusetts)	
Metallographic Preparation of Two-Phase Titanium Alloys for Replica Electron Microscopy	209
S. L. DIGIALLONARDO AND R. R. VANDERVOORT (Livermore, California)	
Dislocation Etch Pits on Basal, Prismatic, and Pyramidal Planes of Single-Crystal Beryllium Oxide.	215
G. M. WOLTEN (El Segundo, California)	
The Utility of Calculated Intensities for the Indexing of Powder Patterns . . .	219
R. C. SANWALD AND D. J. GOULD (Endicott, New York)	
A Technique for Thinning Deposited Films on Fine Wire for Transmission Electron Microscopy	221
H. A. MOREEN, J. M. LARSON, D. H. POLONIS, AND R. TAGGART (Seattle, Washington)	
A Convenient Method for Determining the Rotational Relationship between the Electron Image and the Diffraction Pattern	225
G. L. FISHER AND R. H. GEILS (Suffern, New York)	
A Method for Obtaining Quantitative Dilatometric Data from Alloys Undergoing a Phase Transformation	229
R. S. CHAPPELL, T. A. HUGHES, AND G. POLLARD (Leeds, England)	
The Measurement of Silicon Particle Size Distribution in Rolled Aluminum-Silicon Eutectic Using an Extraction Technique	235
Books: A Selected List	239

NUMBER 3, SEPTEMBER 1970

P. L. WHITE (Toledo, Ohio) AND L. H. VAN VLACK (Ann Arbor, Michigan)	
A Comparison of Two- and Three-Dimensional Size Distributions in a Cellular Material	241
A. G. MARTIN AND C. M. SELLARS (Sheffield, England)	
Measurement of Interfacial Energy from Extraction Replicas of Particles on Grain Boundaries	259
K. FARRELL, J. O. STIEGLER, AND R. E. GEHLBACH (Oak Ridge, Tennessee)	
Transmutation-Produced Silicon Precipitates in Irradiated Aluminum	275
W. G. DORFELD AND V. A. PHILLIPS (Schenectady, New York)	
The Extent of Long-Range Order in γ' Particles Extracted from Renè 63 Superalloy	285
E. C. ROBERTS, H. KELLERER, AND F. D. WALSH (Seattle, Washington)	
Strain-Induced Phase Transformation in Ti-6Al-4V	291

M. H. BURDEN AND H. JONES (Saffron Walden, Essex, England)	
A Metallographic Study of the Effect of More Rapid Freezing on the Cast Structure of Aluminum-Iron Alloys	307
ERDOGAN TEKIN (Ankara, Turkey) AND MARK H. RICHMAN (Providence, Rhode Island)	
An Electron-Microscopical Study of the Tempering of Tungsten High-Speed Steels	327
J. DUBOIS, C. AGACHE (Petten Establishment, The Netherlands), AND J. L. WHITE (San Diego, California)	
The Micrography of the Carbonaceous Mesophase Formed in the Pyrolysis of Graphitizable Organic Materials	337

SHORT COMMUNICATIONS:

DONALD M. CHENEY (Idaho Falls, Idaho)	
New Etchants for Irradiated Uranium Alloys	369
HALLE ABRAMS (Bethlehem, Pennsylvania)	
Application of Shadowing to Reveal Discrete Epitaxial Oxides On Electropolished Steel Thin Foil	373
E. A. ALMOND, J. T. KING (Teddington, Middlesex, England), AND J. D. EMBURY (Hamilton, Ontario, Canada)	
Interpretation of SEM Fracture Surface Detail Using a Sectioning Technique	377

NUMBER 4, DECEMBER 1970

D. A. ABOAV (Chorleywood, Hertfordshire, England)	
The Arrangement of Grains in a Polycrystal	383
G. M. WOLTEN (El Segundo, California)	
Plotting Stereographic Projections as an Orienter-Setting Subroutine	391
H. TENNY (Richland, Washington)	
Rapid Quantitative Electron Microprobe Analysis of Particles	399
HIKARU ITOH (Stuttgart, Germany)	
An Analytical Expression of the Intercept Length Distribution of Cubic Particles	407
W. F. KINDLE AND H. E. TROUT (Monroeville, Pennsylvania)	
Etching Technique for Revealing Substructure in Cementite with the Light Microscope	421
J. M. A. VAN DER HORST (Olean, New York)	
The Influence of Ferrite Content on the Corrosion Resistance of Austenitic Stainless Steel in Urea Synthesis	431
G. FERRAN (Brighton, England)	
Metallographic Preparation and Kossel Line Studies of Aluminum	441

SHORT COMMUNICATIONS:

G. HECKMUS (Brussels, Belgium)	
Simplified Preparation of Thin Films and Foils for TEM	451
J. PELLEG (Nuclear Research Center, Negev, Israel)	
Electropolishing Pure Vanadium	457
C. CHASSAIN AND H. PAQUETON (Corbeil Essone, France)	
Some Observations of Pearlite by Scanning Electron Microscopy	459
T. V. BRASSARD AND A. M. DUBOIS (Watervliet, New York)	
An Epoxy Coating Technique for Edge Preservation of Metallographic Specimens	469

F. J. SCHOEN (San Diego, California) AND W. S. OWEN (Evanston, Illinois)	
Observations on a Single Crystal of Austenite Partially Transformed to Massive-Martensite	473
S. J. THOMPSON AND P. E. J. FLEWITT (Cockfosters, Hertfordshire, England)	
The Preparation of Small Niobium 25% Zirconium Alloy Wires for Electron Microscopy	477
LETTER:	
A. ZACZEWSKI (Bayside, New York)	
Removal of Epoxy Embedment	481
AUTHOR INDEX—VOLUME 3	483
TITLE INDEX—VOLUME 3	484
